

Sponsor a Scholarship

About Sponsor a Scholarship (S.A.S.)

Education is the only tool that can help disadvantaged children create a better life for themselves. This is the aim of the C@P Education S.A.S. project.

In South Africa every child has the right to free basic education. Unfortunately the schools that offer free education is not on the same level as schools that charge school fees, and those schools don't offer the same crucial subjects like Mathematics and Science. This means that gifted children coming from poor communities don't get the opportunity to live out their full potential.

The only thing that stands in their way is the fact that they can't pay school fees. This is why we need your support.

S.A.S. Hostel option:

Children living in rural areas are experiencing high levels of poverty. Food shortages and transport are things that can prevent a child to excel in school. They live far from the nearest town and that is the main reason why the S.A.S. program offers a Hostel option for the children. When children living under these conditions are in hostels, we know that there is enough food and security to help them perform to the best of their abilities.

How does S.A.S. work?

- In January 2014 we enrolled our first gifted S.A.S. student. Her name is Jubilee Nzakimpa. She attended a rural school and we quickly realized her potential. She wants to become a doctor one day, and thanks to a company called FFG in Pretoria, South Africa we could place her in a top school with all the facilities and subjects needed. (Visit www.isupportcap.com to see Jubilee)
- As soon as you let us know you want to Sponsor a Scholarship, the C@P team will identify a gifted child attending a rural school.

- Then you can decide to Sponsor a Scholarship in full or just contribute towards a Scholarship. There is also a hostel option available. Please see the details below.
- If you only contribute towards a scholarship, we will wait until we have enough funds to place a child in a top school.

Full Scholarship per year	Full Scholarship + Hostel facilities per year	Contribution towards a Scholarship	Full 5 year high school Scholarship
\$ 1500	\$ 3500	Any amount	\$ 8000 (School fees) \$ 10 000 (Hostel fees)

- You also have the option to communicate and motivate the child that you support via letters, phone calls, Skype and you can even travel to South Africa and meet the child you support.

Any contribution, big or small, will help us “Change the world for gifted individuals”.
